

REMOVAL OF NATURAL GAS PIPELINE IN THE BOW RIVER

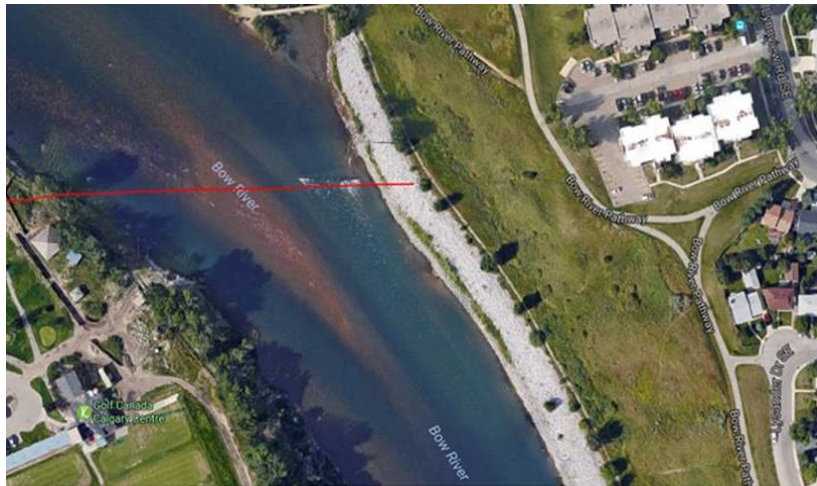

This summer, we will be working in a portion of the Bow River and along the river bank to remove an abandoned natural gas pipe. Please be careful of the construction equipment in the work area. Sorry for the inconvenience and thank-you for your cooperation.

Duration of The Work:

- Mid-July to Mid-September 2017.

Location of the Work:

- Adjacent to Golf Canada Calgary Centre 7100 15 St SE, Calgary, AB.
- See map below and red highlighted line of the approximate location of the section of natural gas pipeline to be removed.

What You Can Expect:

- Heavy equipment on the water shore and in the Bow River.
- Construction activities in the water have the potential to impact navigation of the Bow River at the project location.
- There may be a small amount of disturbance to the ground on the west bank of the Bow River resulting from the removal of a short segment of pipeline from the river bank.
- Open excavations on the shore and accessible to the public will be fenced or supervised.
- Work will be completed in a safe and efficient manner.
- Restoration to work area back to the same condition as it was before the start of the project.
- We will make every effort to minimize any inconvenience.

What This Means to You:

- Be aware of hazards in the water and work areas.
- Avoid excavation site and equipment.
- Work areas will be restored to the same condition as they were before the start of the project.
